Product Description

HOT SALE 4Pcs Glass Watering Globes, Automatic Drippers Waterers Dripping Equipment For Indoor Outdoor Garden Potted Plants

[Easy to Use]- Fill the plant glass bulbs with water, dig a hole on and insert it at the base of the plant. Without any tedious installation, the watering tool will release the right amount of water your plants need.

[Perfect for Vacation]- This is an automatic watering system for your plants for up to 2 weeks, it will water your plants automatically when you are traveling or away. Auto plant watering system is a good helper for the gardening, you don't have to take care of your plants every single day.

[Decorative]- The plant waterer can not only water the plants but also add a beautiful feature to a home or garden. Our glass garden watering bulbs with special pattern is also designed to decorate your home or garden while being practical at the same time.

[Suitable Size]- The globe's caliber is 1cm/0.39 inch. Perfect size to water straight to the roots and effectively prevent water loss from being too fast. Heatier than soaking the plants from the surface.

[Application]- Our aqua water Globes p

xobw 6pcs Durable Home Watering Bulbs
Lightweight Portable Various Colors
Globes for Friends Family Neighbors Gift
xobw

Description:
Features:
6pcs Watering Set: Set Includes 6 multicolored small self watering globes. 4 piece Watering Globe Set is a remarkably simple and beautifully decorative way to make sure flowers and potted plants stay sufficiently hydrated all throughout the year and especially while you're traveling. These self-watering globes distribute water for up to two full weeks.
Premium Material: Featuring 6 strikingly colorful individually-crafted hand-blown glass bulbs. Crafted with high-density, super durable glass, these globes are strong enough, non-frangible, good permeability, can clearly see the amount of water inside, fill the water directly into the watering device into the soil.

Specification:
Material: Glass
Product Size: 6*15cm
Product Weight: About 85g
Capacity: 100ml

Notes:
1. Due to the lighting effects and shooting angles, there is a color difference in the product, please understand.
2. Due to manual measurement, there is a tolerance in the product size.

Package Includes:
1 Set * Plant Watering Globes (6pcs inside)

Product & Listing Information

The screenshot displays an AliExpress product page for a 'plant garden house'. The URL in the browser is <https://aliexpress.us/item/3256806250546715.html?gatewayAdapt=glo2usa>. The page header includes the AliExpress logo, 'EURO2024' branding, and a search bar. The main content area is divided into sections: 'About: Shipment', 'About: Feedback', and 'About: REFUND'. The 'About: Shipment' section lists three points: 1. Worldwide Shipping, 2. Orders will be processed within 5 days after payment is made and verification, and 3. The seller will arrange the shipment according to the address the buyer provides, so the buyer should confirm and check the address details. The 'About: Feedback' section states that feedback is important and provides instructions on how to leave feedback. The 'About: REFUND' section explains the refund process. The right sidebar contains product details: 'Color: 4pcs', 'Ship to: United States', and 'AliExpress commitment' which includes shipping (\$7.26, delivery Jul 15-24), fast delivery (30-day money back guarantee), free returns (90 days), security & privacy, and sustainability. At the bottom of the sidebar are buttons for 'Buy now' and 'Add to cart', along with icons for a shopping cart, a percentage sign, and a heart. The footer of the page shows the store name 'Shop1103401413 Store' with a 90.0% positive feedback rating and 42 followers, and buttons for '+ Follow' and 'Message'.

Product Description

Plant Watering Globe

Our set of 4 decorative self watering globes is easy to use and great for taking care of your plants while you are away.

Why Need A Automatic Plant Watering Globe?

Our set of 4 decorative self watering globes is easy to use and great for taking care of your plants while you are away. No need to worry about over or under watering your plants because these watering globes automatically drip water when the soil becomes dry or less saturated. Gravity pulls the water through the glass tube down into the soil. Once the soil has been watered enough the water stops flowing. It's a great way to water plants day-to-day, and the perfect solution to keep plants watered while on vacation.

Perfect for adding a splash of colors to your garden, potted plants, house plants, patio plants, deck pots and hard-to-reach hanging plants.

No need to worry about over- or under-watering your plants because as soil becomes dry, it draws moisture from the glass globe for up to two weeks.

Each globe measures 6 inches in length with a globe diameter of 2.5 inches. Self-watering bulbs can be used with any plant size. Simply add more globes to larger plants and fewer globes to smaller plants.

Each globe measures 6 inches in length with a globe diameter of 2.5 inches. Self-watering bulbs can be used with any plant size. Simply add more globes to larger plants and fewer globes to smaller plants.

Main Features:

Multicolored Glass Plant Watering Globes

This colorful popular glass **aqua globes**. Manually made and made of thickened glass, great quality and beautiful color. Our garden watering accessory with special pattern is very striking and it could decorate your home while being practical at the same time.

Easy to Clean and Maintain

Easy maintaining. To clean globe, simply fill with water and mild dish soap and shake well. Once globe looks clean, rinse and let air dry.

Automatic Watering System

Fill each watering globe with water. Insert the tube into the hole you made in the soil and you are on your way to healthy, beautiful plants. Allowing all indoor and outdoor plants to naturally draw-up water through their soil and root system at their own pace.

How to Use?

1: Fill water into the watering devices through the pipe openings.

2: Use other tools to dig a hole in the soil, this will help to avoid soil clogging the tube.

3: Sharpening design, easy to insert the water bulbs to the hole you made in the soil.

4: The water of plants self watering spikes will automatically release slowly.

- Plant Watering System: 6pcs self watering globe is a remarkably simple and beautifully decorative way to make sure flowers and plants stay sufficiently hydrated all throughout the year and especially while you're traveling.
- Grow Healthy Plant: These decorative glass watering globes are a perfect automatic watering system for your small indoor or outdoor plants. No more over or under-watering your plants! Self-watering bulbs slowly release the perfect amount of water needed into the soil to feed flowers, herbs, and other plants.
- Refillable And Reusable Design: The plant watering balls are easy to turn over, filled with tap water or plain water, and then dumped into a potted plant without soiling.
- Beautiful And Premium Glass: Made of high-density, super durable glass, which is very strong and suitable for indoor and outdoor use, hanging basins, and floor plants.
- Gardening Gift: It is a thoughtful present for that frequent traveler or for that friend that tends to forget to water their houseplants. Vibrant hand-blown glass

Product Description

Are you still frustrated that you can't take care of your plants when you travel? Are you still upset that your plants are wilting because you forgot to water them? We recommend a glass automatic watering device that can provide plants with water for several days and no longer have to worry about going out, stained glass orb The purpose of the automatic watering device is to help you take care of your plants and flowers by reducing watering time, keeping the soil moist and allowing you to better manage your plants. Plants won't dry out and harden from lack of water when you're traveling or forget to water. 1. Automatic watering planter plug-in can help you take care of your plants and flowers and maintain a natural atmosphere indoors and out. It can automatically water your plants for up to 3 ~ 7 days (depending on soil needs), continuously replenishing the right amount of water for healthy plant growth. The transparent colored glass allows you to clearly see how much water is left in the watering bulb so you can replenish it immediately. 2. Easy to grow plants without worrying about over or under watering your plant watering system, the soil slowly absorbs water from the plant watering sphere and once the irrigation system is saturated, the water stops flowing. Automatic watering device makes growing container plants easier to manage. For larger or taller plants, simply add more bulbs. 3. All you have to do is fill the watering bulb with water, insert a hole in the plant soil with a wooden stick, insert the watering bulb into the soil and water the plants automatically. No need to use a spray can or monitor the soil to save your plants' time. 4. The plant watering globes, perfect for indoor plants, house plants, potted plants, garden plants, hanging plants, perfect for business travelers, vacationers or forgetful gardeners! 5. Easy to clean, we equip each set of watering ball with a cleaning brush to help you clean the sludge from the pipe opening.

- **[Suitable Size]** - The aqua globes is 15cm/5.9 inch long, the globe's diameter is 6cm/2.4 inch and the caliber is 1cm/0.39 inch. Perfect size to water straight to the roots and effectively prevent water loss from being too fast. Healthier than soaking the plants from the surface.
- **[Easy to Use]** - Fill the plant glass bulbs with water, dig a hole on and insert it at the base of the plant. Without any tedious installation, the watering tool will release the right amount of water your plants need.
- **[Perfect for Vacation]** - This is an automatic watering system for your plants for up to 2 weeks. It will water your plants automatically when you are traveling or away. Auto plant watering system is a good helper for the gardening, you don't have to take care of your plants every single day.
- **[Beautiful Radiant Colors]** - Each hand-blown glass orb is distinctive. Colors vary with translucent blue, red, navy and turquoise swirled into unique patterns. Add decorations to your house and garden making it even more beautiful.
- **[Application]** - Our aqua water Globes practical for indoor and outdoor use. Except houseplants, gardens, hanging plants, flowers the spices, herbs, potted plants or patio plants are also suitable.

Product Description

Indoor automatic plant watering device, cute and practical plant accessories gift!

The unique cactus design makes the self-watering ball your garden decoration, adding a little vitality to your plants.

The automatic plant watering ball is your assistant, you no longer have to worry about leaving your plant unattended and can go out without worrying about it drying out or having too much water.

The Garden Watering Ball is ideal for indoor plants, house plants, potted plants, garden plants, hanging plants and more.

Steps to use:

1: Use a tool to dig a hole in the soil of the pot.

2: If the flow rate is too fast, you can use a rubber band to tie a wet paper towel or thin cotton sheet to the spout to slow down the flow rate.

3: Insert the plant watering ball into the hole, add 80% water and cover it with a white cap.

4: Remember to observe the water in the plant watering ball and remember to add water.

Specification parameters:

Product size: 7.5*24CM

Water your plants for over 2 weeks while you are away

- Whether you're on a business trip, vacation, prone to forgetfulness, or simply away from home, with its 13 oz capacity and unique slow-release watering design, the planter insert can provide your plants with up to two weeks of consistent watering on a single fill.
- Say goodbye to concerns about your plant's well-being and the hassle of relying on your neighbors for watering.
- Enjoy your time to the fullest while Soilagua self watering spikes keep your plants healthy and thriving.

How The Watering Globe Works

- Due to the capillary action principle, water inside the glass bulb gradually permeates through the cotton wick within the silicone plug and into the soil.
- It is then absorbed by the plant's roots, and the plant's root suction power (the plant's water requirements) enhances the rate of water infiltration.
- This, in turn, achieves the effect of watering the plant according to its specific needs.

Benefits Of The Plant Watering Devices

- Bottom watering
- Automatic drip irrigation
- No more under watering or overwatering
- No electricity
- Let the sunshine/light through
- No waste of water
- Keep your plants healthy and thriving
